NIA OPERATIONAL PLAN 2019

1 Workforce - Champion the recognition and growth of educational programs to increase digital health knowledge and skills amongst nurses/midwives and nursing/midwifery informaticians

ACTIONS

- 1.1 Support visibility of informatics education specific to nursing/midwifery at a local, national, and international level
- 1.2 Contribute to the development of nursing/midwifery-specific content within local, national, and international digital health programs
- 1.3 Support organisations to build digital health capacity within their nursing/midwifery workforce through advice and resource/tool recommendations
- 1.4 Promote the Certified Health Informatician Australasia (CHIA) program amongst the Australian nursing/midwifery profession

2 Leadership, Influence & Advocacy - Position NIA as the pre-eminent national nursing/midwifery body for nursing/midwifery informatics to lead and advocate for advancing digital health in Australia

ACTIONS

- 2.1 Articulate NIA's position on key priority areas of digital health affect nurses/midwives and nursing/midwifery informaticians
- 2.2 Provide representation to relevant local, state, national, and international digital health committees/organisations when nursing/midwifery content is being developed or discussed
- 2.3 Provide representation to relevant local, state, national, and international nursing/midwifery organisations in relation to nursing/midwifery informatics
- 2.4 Encourage digital health knowledge translation amongst nurses/midwives and nursing/midwifery informaticians
- 2.5 Partner and collaborate with digital health organisations and relevant nursing/midwifery organisations to promote nursing/midwifery informatics and early career preparation of nursing/midwifery informaticians

3 Community - Build our membership through promoting a passion for nursing/midwifery informatics

ACTIONS

- 3.1 Provide regular networking opportunities for members and potential members to connect and engage in topics related to nursing/midwifery informatics and digital health
- 3.2 Provide opportunities for members to share nursing/midwifery informatics knowledge and experiences to improve nursing/midwifery practice
- 3.3 Provide a list of educational opportunities for nurses/midwives interested in nursing/midwifery informatics and digital health

4 Events - Host and/or contribute to local, state, national and international nursing/midwifery informatics and digital health events

ACTIONS

- 4.1 Deliver a successful NIA 2019 conference (financially and experientially)
- 4.2 Collaborate with relevant organisations/branches/groups to provide nursing/midwifery-focused events
- 4.2 Contribute to the planning of the NI 2020 conference
- 4.3 Promote NI 2020 to the nursing/midwifery profession

5 Organisational Capacity - Demonstrate effective governance in all NIA transactions

ACTIONS

- 5.1 Demonstrate compliance with meeting and record keeping protocol as per HISA framework
- 5.2 Demonstrate efficiency through documented processes and procedures
- 5.3 Demonstrate a transparent process for monitoring outstanding actions, financial status, and progress against strategic priorities, pillars, actions and outcomes
